

Mobilization of the Cranial Nerves

MAY 3 & 4, 2025
SHERIDAN COLLEGE
BRAMPTON CAMPUS

By: Anne Hartley

Course Description

A dynamic hands-on manual course designed for osteopaths and osteopathic manual practitioners who want to learn the mobilization of the cranial nerves. These techniques are useful for treating conditions such as concussion, Bell's Palsy, visual dysfunction, loss of smell due to COVID, Burning Mouth Syndrome, Trigeminal Neuritis, Tinnitus, and ear, nose and throat pathology. Nerves must be free and mobile to function properly. Injuries, surgeries, infections and dental work can affect the mobility of the cranial nerves and result in neural pathology. Adhesions, foramen restrictions and cranial pathology must be addressed to stimulate and mobilize the cranial nerves.

OA0 15 CEU's

Agenda

Saturday	
8:00- 8:30	Registration
8:30 – 10:30	Review of the cranial nerves and their pathways History taking for the cranial nerves
10:30 – 12:30	Cranial preparation techniques Treatment of Olfactory, Optic, and Oculomotor nerves
1:30 – 5:30	Treatment of the Trochlear, Abducens and Trigeminal nerves
Sunday	
8:30 – 5:30	Treatment of the Facial nerve and the Vestibulocochlear, Glossopharyngeal, Vagus, Accessory, and Hypoglossal nerves

Course Objectives

The participant will be able to:

- Learn manual techniques for treatment of the pathology of the cranial nerves
- Advance their knowledge of the anatomy of the cranial nerves and their pathways
- Practice manual techniques to regain the mobility of the cranial nerves through manual stimulation, stretching, and mobilizing the nerves

COST:

Early bird one month before starting date is \$550.00 plus tax = \$621.50
After April 2 - \$575.00 plus tax = \$649.75
