

Mobilization of the Cranial Nerves

NOV 15 AND 16, 2025
BACK WORKS
PHYSIOTHERAPY
WATERLOO

By: Anne Hartley

Course Description

A dynamic hands-on manual course is for osteopaths and osteopathic manual practitioners **with advanced cranial knowledge and skills**, who want to learn mobilization of the cranial nerves. These techniques are useful for treating conditions such as concussion, Bell's Palsy, visual dysfunction, loss of smell due to COVID, Burning Mouth Syndrome, Trigeminal Neuritis, Tinnitus, and ear, nose and throat pathologies. Injuries, surgeries, infections and dental work can affect the mobility of the cranial nerves resulting in neural pathology. Adhesions, foramen restrictions and cranial pathology must be addressed to stimulate and mobilize the cranial nerves.

Agenda

Saturday	
8:00- 8:30	Registration
8:30 – 10:30	Review of the cranial nerves and their pathways History taking for the cranial nerves
10:30 – 12:30	Cranial preparation techniques Treatment of Olfactory, Optic, and Oculomotor nerves
1:30 – 5:30	Treatment of the Trochlear, Abducens and Trigeminal nerves
Sunday	
8:30 – 5:30	Treatment of the Facial, Vestibulocochlear, Glossopharyngeal, Vagus, Accessory, and Hypoglossal nerves

Course Objectives

The participant will be able to:

- Learn manual techniques for the treatment of the pathology of the cranial nerves
- Advance their knowledge of the anatomy of the cranial nerves and their pathways
- Practice manual techniques to regain the mobility of the cranial nerves through manual stimulation, stretching, and mobilizing the nerves

COST:

Early bird before Oct. 15: \$550.00 plus HST = \$621.50
After Oct. 15: \$575.00 plus HST = \$649.75
